

48" Round Marine Grade Polymer Raleigh Dining Table with Aluminum Frame

SKU: RPKD4828

Description

Dining tables are an essential addition to any outdoor dining set, the Raleigh Dining table provides an attractive wood grain style with a durability that can't be beaten. Made with a marine-grade polymer that is resistant to fading, warping, mildew, and salt war. The non-porous surface is easy to clean and moisture won't build up over time. This table is great for beachside dining, hotel pool areas, and coastal resorts. The frame is commercial aluminum that is powder-coated to protect against rust and blistering. Your dining hall has never looked better with the 48" Raleigh Dining Table adorning it.
