Description

Recycling never looked so good with our 32 Gallon Square Custom Cut Steel Panel Trash Receptacle with Recycle Top! The patterns on each panel are digitally designed and cut with precision by a laser for the utmost accuracy. Crafted from powder-coated steel, this recycling receptacle will provide years of faithful service without rusting, chipping, or fading. Perfect for both indoor and outdoor use at hospitals, hotels, malls, and food courts. The flat lid provides a 4" opening which allows aluminum cans and plastic bottles to be deposited instead of non-reusable waste. It comes with a heavy-duty plastics liner for simple recyclable removal. Made in America for the good of America!
