

Item # TG36CT

"Shorea Timeless Garden Series" furniture is made from Asian Shorea Wood, which is a sister wood to teak. It has very long life and weathers well. Left untreated it turns to a silvery gray. A clear preservative coat or a stain of your choice (periodically applied) will maintain or enhance its natural beauty for many years to come - thus the "TIMELESS" name. Each item comes knocked down with hardware and simple assembly instructions. Suitable for Malls or Hotel courtyards, Gardens, Apartments or Retirement Complexes.
