

19" Square Marine Grade Polymer Side Patio Table with X-Base

Product SKU: RPWT1925STP

Description

This 19" Square Side Table is ideal for drinks by the pool or relaxing on the deck. The tabletop is made with marine grade polymer, a durable material resistant to water, chlorine, and any weather condition. Perfect for outdoor use on the patio! MGP is also non-porous so dirt, chemicals, and liquids such as wine won't absorb into it making cleanup a breeze. Choose between solid color polymer or recycled woodgrain that resembles real wood without the upkeep. The x-base is made of powder-coated aluminum in your choice of a glossy or textured finish. This low-maintenance side table is great for busy hotels, resorts, HOA communities, and public poolhouses. It arrives fully assembled for ready-use right away.
