

48" Round Acrylic Patio Dining Table with Commercial Aluminum Frame

SKU: RPWT4818AU

Description

Our 48" round dining table features an aluminum frame with an acrylic top to give a residential look while providing commercial quality. The acrylic top looks like glass but doesn't have the liability, while also being a much lighter and more durable material. Also, choose whether to include a hole for an umbrella in the center of the table, which comes with a nylon plug. The robust 1.5" x 3/4" extruded aluminum frame is sandblasted and then powder coated with your choice of frame color, creating a rust-resistant finish. A capture rim design has been added to the top of the 28" high frame to restrict movement of the acrylic. The acrylic top can be replaced, making it a great investment. This round acrylic top dining table is a wonderful addition to hotels, resorts, and retirement communities.
