Description

This Handmade Recycled Plastic Folding Side Table makes a great addition in-between two complementing chairs or chaise lounges, so guest can set their snacks, drinks, or belongings down as they relax in the sun. Structured out of solid high-density polyethylene (HDPE) lumber, this durable side table will stand strong for years in an outdoor setting with little maintenance required. The chosen color is mixed throughout the recycled plastic formula for an even finish without the need to repaint the table. The frame is foldable for convenient storage throughout the seasonal cycles. Ships knocked down for reduced shipping costs and will need to be assembled. This product is American made and is supported by a 5-year commercial warranty.
