Description

Our 39-gallon hooded top trash receptacle allows easy disposal from two sides while preventing precipitation, such as rain or snow from entering. Crafted out of 100% commercial grade HDPE, this receptacle will resist fading, cracking, or denting in direct sunlight. HDPE plastics are very low maintenance and simple to clean with soap and water. Included a hard-plastic trash can liner that easily removes heavy trash, without breaking the trash bag. Perfect in outdoors environments at convenient stores, grocery stores, and food courts. American made quality, supported with a 1-year commercial warranty.
